I. INTRODUCTION

A. RISK FACTORS

■ Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down depending on the various factors and forces affecting the capital markets and money markets.
- Past performance of the Sponsors and their affiliates/ AMC/ Mutual Fund does not guarantee future performance of the Scheme(s) of the Mutual Fund.
- The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The Sponsors are not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of Rs.1 lakh each made by them towards setting up the Fund.
- The present Scheme is not a guaranteed or assured return scheme.

■ Scheme Specific Risk Factors

Some of the specific risk factors related to the Scheme include, but are not limited to the following:

(i) Risk factors associated with investing in equities and equity related instruments

- The Scheme will predominantly invest in the universe of companies specified by RGESS as Eligible Securities. Accordingly, the NAV of the Scheme is linked to the performance of such companies. Such companies may outperform or underperform the benchmark index and/or the constituents of the said benchmark index.
- Investments in equity shares of public sector enterprises which are categorised as Maharatna, Navratna or Miniratna by the Central Government are prone to price fluctuation due to changes in government policies and decision making. Actions of the central government or state governments could have a significant impact on the performance of the share prices of such companies.
- Equity shares and equity related instruments are volatile and prone to price fluctuations on a daily basis. Investments in equity shares and equity related instruments involve a degree of risk and investors should not invest in the Scheme unless they can afford to take the risks.

(ii) Risk factors associated with investing in Fixed Income Securities

- The Net Asset Value (NAV) of the Scheme, to the extent invested in Debt and Money Market instruments, will be affected by changes in the general level of interest rates. The NAV of the Scheme is expected to increase from a fall in interest rates while it would be adversely affected by an increase in the level of interest rates.
- Money market instruments, while fairly liquid, lack a well developed secondary market, which may restrict the selling ability of the Scheme and may lead to the Scheme incurring losses till the security is finally sold.
- Investment in Debt instruments are subject to the risk of an issuer's inability to meet interest and principal payments on its obligations and market perception of the creditworthiness of the issuer. Changes in financial conditions of an issuer, changes in economic and political

conditions in general, or changes in economic or and political conditions specific to an issuer, all of which are factors that may have an adverse impact on an issuer's credit quality and security values.

- Government securities where a fixed return is offered run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates. The new level of interest rate is determined by the rates at which government raises new money and/or the price levels at which the market is already dealing in existing securities. The price-risk is not unique to Government Securities. It exists for all fixed income securities. However, Government Securities are unique in the sense that their credit risk generally remains zero. Therefore, their prices are influenced only by movement in interest rates in the financial system.
- Different types of fixed income securities in which the Scheme would invest as given in the Scheme Information Document carry different levels and types of risk. Accordingly, the Scheme risk may increase or decrease depending upon its investment pattern. e.g. corporate bonds carry a higher level of risk than Government securities. Further even among corporate bonds, AAA rated bonds are comparatively less risky than AA rated bonds.
- The AMC may, considering the overall level of risk of the portfolio, invest in lower rated / unrated securities offering higher yields as well as zero coupon securities that offer attractive yields. This may increase the absolute level of risk of the portfolio.
- As zero coupon securities do not provide periodic interest payments to the holder of the security, these securities are more sensitive to changes in interest rates. Therefore, the interest rate risk of zero coupon securities is higher. The AMC may choose to invest in zero coupon securities that offer attractive yields. This may increase the risk of the portfolio. Zero coupon or deep discount bonds are debt obligations that do not entitle the holder to any periodic payment of interest prior to maturity or a specified date when the securities begin paying current interest and therefore, are generally issued and traded at a discount to their face values. The discount depends on the time remaining until maturity or the date when securities begin paying current interest. It also varies depending on the prevailing interest rates, liquidity of the security and the perceived credit risk of the Issuer. The market prices of zero coupon securities are generally more volatile than the market prices of securities that pay interest periodically.
- Apart from normal credit risk, zero coupon bonds carry an additional risk, unlike bonds that pay interest throughout the period to maturity, zero coupon instruments/deferred interest bonds typically would not realise any cash until maturity. If the issuer defaults, the Scheme may not obtain any return on its investment.
- Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor, including a put option. The Scheme may choose to invest in unlisted securities that offer attractive yields. This may increase the risk of the portfolio.
- Prepayment Risk: Certain fixed income securities give an issuer the right to call back its securities before their maturity date, in periods of declining interest rates. The possibility of such prepayment may force the Scheme to reinvest the proceeds of such investments in securities offering lower yields, resulting in lower interest income for the Scheme.

- **Reinvestment Risk:** This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme are reinvested. The additional income from reinvestment is the "interest on interest" component. The risk is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.
- Investments in money market instruments involve credit risk commensurate with short term rating of the issuers.
- Scheme's performance may differ from the benchmark index to the extent of the investments held in the debt segment, as per the investment pattern indicated under normal circumstances.

(iii) General Risk Factors

- Trading volumes, settlement periods and transfer procedures may restrict the liquidity of the investments made by the Scheme. Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances leading to delays in receipt of proceeds from sale of securities. The NAV of the Units of the Scheme can go up or down because of various factors that affect the capital markets in general.
- At times, due to the forces and factors affecting the capital market, the Scheme may not be able to invest in securities falling within its investment objective resulting in holding the monies collected by it in cash or cash equivalent or invest the same in other permissible securities / investments amounting to substantial reduction in the earning capability of the Scheme. The Scheme may retain certain investments in cash or cash equivalents for its day-to-day liquidity requirements.
- Performance of the Scheme may be affected by political, social, and economic developments, which may include changes in government policies, diplomatic conditions, and taxation policies.
- While securities that are listed on the stock exchange carry lower liquidity risk, the ability to sell these investments is limited by the overall trading volume on the stock exchanges and may lead to the Scheme incurring losses till the security is finally sold.
- Investment strategy to be adopted by the Scheme may carry the risk of significant variance between the portfolio allocation of the Scheme and the Benchmark particularly over a short to medium term period.

(iv) Risk factors associated with close-ended schemes

- A close-ended scheme endeavors to achieve the desired returns only at the scheduled maturity of the Scheme. Investors who wish to exit/redeem before the scheduled maturity date may do so through the stock exchange mode. For the Units listed on the exchange, it is possible that the market price at which the Units are traded may be at a discount to the NAV of such Units. Hence, Unit holders who sell their Units in a Scheme prior to maturity may not get the desired returns. Moreover, given the nature of the Scheme, the AMC may be required to liquidate the equity portfolio and the proceeds may be kept in cash and invested largely in cash equivalents/money market instruments towards the Maturity/Final Redemption date and to that extent these investments made may not be in line with the asset allocation pattern.

(v) Risk Factors associated with Market Trading

- Although Units of the Scheme as mentioned in this Scheme Information Document are to be listed on the Exchange(s), there can be no assurance that an active secondary market will develop or be maintained.
- Trading in Units of the Scheme on the Exchange(s) may be halted because of market conditions or for reasons that in view of Exchange Authorities or SEBI, trading in Units

of the Scheme is not advisable. In addition, trading in Units of the Scheme is subject to trading halts caused by extraordinary market volatility and pursuant to Exchange and SEBI 'circuit filter' rules. There can be no assurance that the requirements of Exchange necessary to maintain the listing of Units of the Scheme will continue to be met or will remain unchanged.

- Any changes in trading regulations by the Exchange(s) or SEBI may inter-alia result in wider premium/ discount to NAV.
- The Units of the Scheme may trade above or below their NAV. The NAV of the Scheme will fluctuate with changes in the market value of the Scheme's holdings.
- The trading prices of Units of the Scheme will fluctuate in accordance with changes in their NAV as well as market supply and demand for the Units of the Scheme.
- The Units will be issued in demat form through depositories. The records of the depository are final with respect to the number of Units available to the credit of Unit holder. Settlement of trades, repurchase of Units by the Mutual Fund on the maturity date / final redemption date will depend upon the confirmations to be received from depository(ies) on which the Mutual Fund has no control.
- As the Units allotted under Scheme will be listed on the Exchange(s), the Mutual Fund shall not provide for redemption / repurchase of Units prior to maturity / final redemption date of the Scheme.

(vi) Risk factors associated with processing of transaction through Stock Exchange Mechanism

- The trading mechanism introduced by the stock exchange(s) is configured to accept and process transactions for mutual fund Units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE or any other recognised stock exchange(s), on any Business Day will depend upon the modalities of processing viz. collection of application form, order processing/settlement, etc. upon which the Fund has no control. Moreover, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized stock exchange(s).

(vii) Disclaimer of the Index:

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

- The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. These conditions will be complied with immediately after the close of the NFO itself i.e. at the time of allotment. E. WHAT ARE THE INVESTMENT STRATEGIES?

INVESTMENT STRATEGIES AND RISK CONTROL

The Scheme would invest in equity securities which are specified as Eligible Securities for RGESS as amended from time to time. The investment objective of the Scheme is to generate long term capital appreciation from a portfolio of Eligible Securities as specified in RGESS.

The investment strategy of the Scheme is to build and maintain a diversified portfolio of "Eligible Securities as specified under RGESS" that have the potential to appreciate in the long run. Companies identified for selection in the portfolio will have demonstrated a potential ability to grow at a reasonable rate for the long term. The aim will be to build a portfolio that adequately reflects a cross-section of the growth areas of the economy from time to time. While the portfolio focuses primarily on a buy and hold strategy at most times, it will balance the same with a rational approach to selling when the anticipated price appreciation being achieved or being no longer possible due to a change in fundamental factors affecting the company or the market in which it competes, or due to the availability of an alternative that, in the view of the Fund Manager offers superior returns.

The investment strategy of the Scheme is to invest in a portfolio of diversified equities from the following universe of Eligible Securities as specified under RGESS:

1. Equity shares, on the day of purchase, falling in the list of equity declared as "BSE-100" or "CNX-100" by the Bombay Stock Exchange or the National Stock Exchange, as the case may be;
2. Equity shares of public sector enterprises which are categorised as Maharatna, Navratna or Miniratna by the Central Government;
3. Follow on Public Offer of sub-clauses 1 and 2 above;
4. Initial Public Offer of a public sector undertaking wherein the Government shareholding is at least fifty-one per cent which is scheduled for getting listed in the relevant previous year and whose annual turnover is not less than four thousand crore rupees during each of the preceding three years.

The Scheme shall also invest in cash & cash equivalents and money market instruments to meet the liquidity requirements for honouring redemptions (at the time of maturity)/ expenses.

Though every endeavor will be made to achieve the objectives of the Scheme, the AMC/Sponsors/Trustee do not guarantee that the investment objectives of the Scheme will be achieved. No guaranteed returns are being offered under the Scheme.

Risk Control

Investments made from the net assets of the Scheme would be in accordance with the investment objective of the Scheme and the provisions of the SEBI (MF) Regulations. The AMC will strive to achieve the investment objective by way of a portfolio comprising predominantly of Eligible Securities as specified under RGESS.

The RGESS guidelines, as amended from time to time would be adhered to in the management of this Scheme.

The Scheme shall invest in cash & cash equivalents and money market instruments to meet the liquidity requirements for honouring redemptions (at the time of maturity)/ expenses. Every investment opportunity in Money Market Instruments would be assessed with regard to credit risk, interest rate risk and liquidity risk.

Credit Evaluation Policy

The credit evaluation policy of the AMC entails evaluation of credit fundamentals of each investment opportunity. Some of the factors that are evaluated inter-alia may include outlook on the sector, parentage, quality of management, and overall financial strength of the credit. The AMC utilises ratings of recognised rating agencies as an input in the credit evaluation process. Investments in bonds and debenture are usually in instruments that have been assigned high investment grade ratings by a recognized rating agency.

In line with SEBI Circular No. MFD/CIR/9/120/ 2000 dated November 24, 2000; the AMC may constitute committee(s) to approve proposals for investments in unrated instruments. The AMC Board and the Trustee shall approve the detailed parameters for such investments. The details of such investments would be communicated by the AMC to the Trustee in their periodical reports. It would also be clearly mentioned in the reports, how the parameters have been complied with. However, in case any security does not fall under the parameters, the prior approval of Board of AMC and Trustee shall be sought.

Interest Rate Risk

An interest rate scenario analysis would be performed on an on-going basis, considering the impact of the developments on the macro-economic front and the demand and supply of funds. Based on the above analysis, the AMC would manage the investments of the Scheme on a dynamic basis to exploit emerging opportunities in the investment universe and manage risks at all points in time.

Liquidity Risk

The liquidity of investments made in the Schemes may be restricted by trading volumes, settlement periods and transfer procedures. Although the investment universe constitutes securities which will have high market liquidity, there is a possibility that market liquidity could get impacted on account of company/sector/general market related events and there could be a price impact on account of portfolio rebalancing.

Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. Delays or other

problems in settlement of transactions could result in temporary periods when the assets of the Schemes are uninvested and no return is earned thereon. The inability of the Scheme to make intended securities purchases, due to settlement problems, could cause the Schemes to miss certain investment opportunities.

Money market instruments, while fairly liquid, lack a well-developed secondary market, which may restrict the selling ability of the Schemes and may lead to the Schemes incurring losses till the security is finally sold.

Liquidity Risk on account of unquoted and unlisted money market instruments.

The liquidity and valuation of the Scheme's investments due to its holdings of unlisted money market instruments may be affected if they have to be sold prior to their target date of divestment. Securities, which are not quoted on the stock exchanges, are inherently illiquid in nature and carry a larger amount of liquidity risk, in comparison to securities that are listed on the exchanges or offer other exit options to the investor. Within the Regulatory limits, the AMC may choose to invest in unlisted securities that offer attractive yields. This may increase the risk of the portfolio.

Concentration Risk

The AMC will mitigate this risk by investing in sufficiently large number of issuers spread across the various sectors within the investment universe qualified as 'Eligible Securities' under RGESS so as to maintain optimum diversification and keep issuer/sector specific concentration risk relatively low.

PORTFOLIO TURNOVER

In view of the nature of the Scheme, the likely turnover in the portfolio will be due to change in composition of Eligible Securities made as per the prevailing market conditions and changes made to the portfolio as per investment strategy.

INVESTMENT DECISIONS

The Investment Committee comprising Chief Investment Officer (CIO), Fund Manager(s) - Equities (for equity related matters), Fund Manager(s) - Debt (for debt related matters) and Chief Compliance Officer will inter alia lay down the Fund's investment philosophy, policy and processes / procedures, review the performance / portfolios of the Schemes, monitor the credit ratings of debt exposures, etc.

Investment decisions shall be recorded by the respective Fund Manager(s) along with reasons for the same. Research reports, both internal and external, covering inter alia factors like business outlook, financial analysis, valuation, etc. shall assist the Fund Manager(s) in the decision-making. Credit exposure limits shall be set and reviewed by the Head of Credit, Fund Manager(s) - Debt and the CIO.

The Executive Director & Chief Investment Officer and the Investment Committee report to the Managing Director. Investment decisions are taken by the Fund Manager(s) of the respective Scheme and the Managing Director does not play any role in the day-to-day investment decisions. The Managing Director of the AMC shall ensure that the investments made by the Fund Managers are in the interest of the Unit holders.

Periodic presentations will be made to the Board of Directors of the AMC and Trustee Company to review the performance of the Scheme.

J. HOW HAS THE SCHEME PERFORMED?

This Scheme is a new scheme and does not have any performance track record.

K. ABOUT RAJIV GANDHI EQUITY SAVINGS SCHEME (RGESS)

The Finance Act 2012 introduced a new section 80CCG on 'Deduction in respect of investment made under an equity savings scheme' as notified by the Central Government to give tax benefits to 'New Retail Investors' who invest up to Rs.50,000/- and whose gross total annual income is less than or equal to Rs.10 lakhs.

The Ministry of Finance approved a new tax savings scheme named Rajiv Gandhi Equity Savings Scheme (RGESS) vide Notification no. 51/2012 F. No. 142/35/2012-TPL dated November 23, 2012. SEBI issued Circular no. CIR/MRD/DP/32/2012 dated December 06, 2012 directed inter-alia Mutual Funds to take note of RGESS notification and take necessary steps to implement the RGESS.

In the Finance Act, 2013, certain conditions of RGESS were liberalized. Ministry of Finance thereafter vide Notification no. 94/2013 F. No. 142/35/2012 -TPL dated December 18, 2013 notified RGESS, 2013 i.e. the amended RGESS. The objective of RGESS is to encourage the flow of savings in the financial instruments and improve the depth of the domestic capital market by New Retail Investors.

Salient features of RGESS are as under:

1. RGESS is open to New Retail Investors, identified on the basis of their PAN. These shall mean investors:
 - (i) who have not opened a demat account and have not made any transactions in the derivative segment before the date of opening of a demat account or the first day of the Initial Year, whichever is later, or
 - (ii) who have opened a demat account but have not made any transactions in the equity segment or the derivative segment before the date they designated their existing demat account for the purpose of availing the benefit under RGESS (hereinafter referred to as an 'RGESS Demat Account') or the first day of the Initial Year, whichever is later.

Explanation:

- a) "Initial Year" means -
 - the financial year in which the investor designates his demat account as an RGESS Demat Account and makes investment in the Eligible Securities for availing deduction under the Scheme; or
 - the financial year in which the investor makes investment in Eligible Securities for availing deduction under RGESS for the first time, if the investor does not make any investment in Eligible Securities in the financial year in which the account is so designated;

In case of existing joint accounts, all joint account holders other than the first account holder (e.g. second / third account holders) or nominees of the existing account holders will be eligible to open a fresh RGESS Demat Account, and be considered as 'New Retail Investors' to avail the benefits under RGESS, if otherwise eligible.

2. The Depository shall certify the 'New Retail Investor' (hereinafter referred to as 'investor') status of the investor at the time of designating his Demat account as RGESS Demat Account.
3. Investment in Eligible Securities may be made for any amount and in one or more transactions in a given financial year. However, the maximum permissible Investment for claiming deduction under RGESS is Rs.50,000/- and the investor would get a 50% deduction of the amount invested from the taxable income for that year.
4. The investor may invest in one or more financial years in a block of three consecutive financial years beginning with the Initial Year. If the investor does not invest in any financial year following the Initial Year, he may invest in the subsequent financial year, within the three consecutive financial years beginning with the Initial Year. The investor shall be eligible for the tax benefit under RGESS in respect of the investment made in each financial year.
For e.g.: If an investor invests first time in Eligible Securities under RGESS in FY 2013-14 and avails deduction, he may also invest in either or both of FY 2014-15 and FY 2015-16 and avail deduction for the relevant year(s).
5. The gross total income of the investor for the relevant year shall not exceed Rs.12 lakhs (financial year 2013-14 onwards, prior to that the total income shall not exceed Rs.10 lakhs);
6. Investors who invested under RGESS 2012 are also eligible to invest in Financial Years 2013-14 and 2014- 15 and avail benefits under RGESS 2013. Investments made under RGESS 2012 will be governed by the provisions of RGESS 2012 only to the extent the provisions of RGESS 2012 are not in contravention of RGESS 2013.
7. Amongst the universe of Eligible Securities that an investor can invest in, the Units of Exchange Traded Funds (ETFs) or Mutual Fund schemes or equity oriented funds which have Eligible Securities as their underlying and are listed and traded on the stock exchanges and settled through a depository mechanism are also covered.
8. The Eligible Securities credited in the RGESS Demat Account will automatically be subject to lock-in during its first year unless the New Retail Investor submits a declaration (within one month from the date of transaction) in the prescribed format to the Depository Participant indicating that such securities are not to be included within the above limit of investment for claiming tax deduction.
9. The total lock-in period for investments under the RGESS would be three years including the fixed lock-in period and the flexible lock in period. The fixed lock-in period will commence from the date of purchase of Eligible Securities under RGESS in the relevant financial year till March 31 of the year immediately following the relevant financial year. The flexible lock-in period shall be the period of two years beginning immediately after the end of the fixed lock-in period.

For e.g. If Eligible Securities are purchased on 02.04.2014, the fixed lock-in period will be from 02.04.2014 to 31.03.2016 and the flexible lock-in period will be from 01.04.2016 to 31.03.2018.

10. After completion of the fixed lock-in period, investors would be allowed to trade in the securities. Investors would, however, be required to maintain their level of investment during the next two years (i.e. the flexible lock-in period) at the amount for which they have claimed income tax benefit or at the value of the portfolio before initiating a sale transaction, whichever is less, for at least 270 days in each of these 2 years. Such investment value shall exclude the value of investment which is under the fixed lock-in period.
11. The balance of the investment portfolio of Eligible Securities in the RGESS Demat Account, at any point of time during the flexible lock-in period, shall not be less than the amount corresponding to the value of the securities in the fixed lock-in.
12. The general principle under which trading is allowed is that whatever is the value of stocks / Units sold by the investor from the RGESS portfolio, RGESS compliant securities of at least the same value are credited back into the account subsequently. However, the investor is allowed to take benefits of the appreciation of his RGESS portfolio, provided its value, as on the previous day of trading, remains above the investment for which they have claimed income tax benefit.
13. The Depository Participant shall furnish an annual statement of the Eligible Securities invested in or traded through the Demat account to the investor (Demat account holder).
14. In case the investor fails to meet the conditions stipulated under RGESS and the provisions laid under Section 80CCG of the Income-tax Act, 1961, the taxability would be as provided under RGESS.

For complete details, investors are requested to read section 80CCG of the Income-Tax Act, 1961, the notification on Rajiv Gandhi Equity Savings Scheme issued by ministry of finance and Frequently Asked Questions (FAQs) on RGESS. The same are made available on our website viz., www.hdfcfund.com

Settlement of Purchase/ Sale of Units of the Scheme on NSE/BSE

Buying/ Selling of Units of the Scheme on NSE/BSE is just like buying/selling any other normal listed security. If an Investor has bought Units, an Investor has to pay the purchase amount to the broker/sub- broker such that the amount paid is realized before the funds pay-in day of the settlement cycle on the NSE/BSE. If an Investor has sold Units, he/she has to deliver the Units to the broker/sub-broker before the securities pay-in day of the settlement cycle on the NSE/BSE. The Units (in the case of Units bought) and the funds (in the case of Units sold) are paid out to the broker on the pay-out day of the settlement cycle on the NSE/BSE regulations stipulate that the trading member should pay the money or Units to the Investor within 24 hours of the pay-out.

If an Investor has bought Units, he should give standing instructions for 'Delivery-In' to his/her DP for accepting Units in his/her beneficiary account. An Investor should give the details of his/her beneficiary account and the DP-ID of his/her DP to his/her trading member. The trading member will transfer the Units directly to his/her beneficiary account on receipt of the same from NSE's Clearing Corporation / BSE's Clearing Corporation.

An Investor who has sold Units should instruct his/her Depository Participant (DP) to give 'Delivery Out' instructions to transfer the Units from his/her beneficiary account to the Pool Account of his/her trading member through whom he/she have sold the Units. The details of the Pool A/C (CM-BP-ID) of his/her trading member to which the Units are to be transferred, Unit quantity etc. should be mentioned in the Delivery Out instructions given by him/her to the DP.

The instructions should be given well before the prescribed securities pay-in day. SEBI has advised that the Delivery Out instructions should be given at least 24 hours prior to the cut-off time for the prescribed securities pay-in to avoid any rejection of instructions due to data entry errors, network problems, etc.

Rolling Settlement

As per the SEBI's circular dated March 4, 2003, the rolling settlement on T+2 basis for all trades has commenced from April 1, 2003 onwards. The Pay-in and Pay-out of funds and the Units will take place 2 working days after the trading date.

The pay-in and pay-out days for funds and securities are prescribed as per the Settlement Cycle. A typical Settlement Cycle of Rolling Settlement is given below:

Day Activity

T	The day on which the transaction is executed by a trading member
T+1	Confirmation of all trades including custodial trades by 11.00a.m.
T+1	Processing and downloading of obligation files to brokers / custodians by 1.30 p.m.
T+2	Pay-in of funds and securities by 11.00 a.m.
T+2	Pay out of funds and securities by 1.30 p.m.

While calculating the days from the Trading day (Day T), weekend days (i.e. Saturday and Sundays) and bank holidays are not taken into consideration.
